DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/11/04 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bennett on 8/18/2004.

The application has been amended as follows:

IN THE SPECIFICATION

Change the title to --A METHOD OF FIRING MAGNETIC CORES--.

IN THE CLAIM

Re. claim 15: After the phrase "comprising" recited in line 2, change "th" to --the--.

Art Unit: 3729

Re. claim 18: After the phrase "a particle" as recited in line 2, change "siz" to – size--.

Re. claim 28: After the phrase "one" recited in line 7, change "anoth r" to – another--.

Re. claim 33: After the phrase "at least" recited in line 1, change "on" to –one--.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as arranging each of the plurality of flattened-ring compact bodies so that axes of the through holes are arranged horizontally follow by attaching a powder outer surface of the plurality of flattened-ring compact bodies and stacking the plurality of flattened-ring compact bodies so that the axes of the through holes are vertically arranged. Also, the prior art of record fails to disclose a process of attaching a bar only to each of a pair of sides of the stacked plurality of flattened-ring compact bodies (as per claims 5 and 15) such that joints between the adjacent thin compact bodies are not covered by the bar (as per claims 23 and 28). It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
